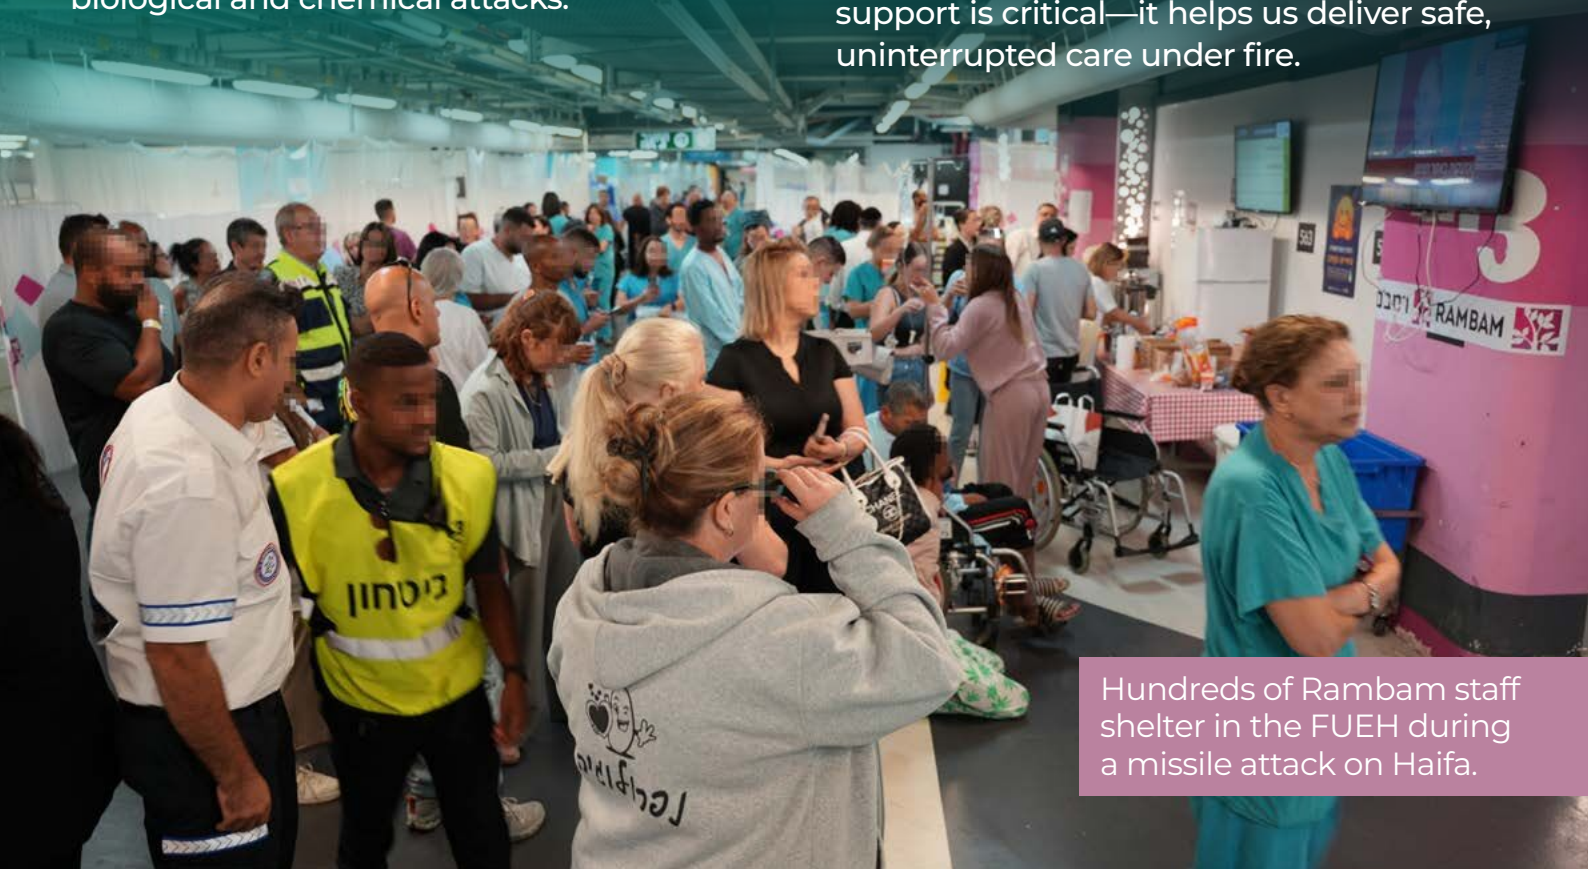
OPERATION LION'S ROAR

HELP RAMBAM SAVE LIVES

As missiles rain down, Rambam continues to serve as Northern Israel's largest referral hospital. Since February 28, 2026, essential medical services moved from unfortified aboveground facilities to the Fortified Underground Emergency Hospital, which was built to handle up to 2,000 patients in a five-acre facility fortified against conventional, biological and chemical attacks.

We are prepared to respond to a wide range of emergency situations, including the ability to accept and care for patients transferred from other area hospitals; however, we will require additional assistance and support to do so effectively.

To meet this growing demand, we've launched an Emergency War Fund. Your support is critical—it helps us deliver safe, uninterrupted care under fire.



Hundreds of Rambam staff shelter in the FUEH during a missile attack on Haifa.

HOW YOU CAN HELP

BASED ON OUR MOST URGENT NEEDS

ADVANCED MEDICAL SYSTEMS

$2,700,000

Life-support equipment, diagnostic imaging systems, surgical instruments.

CRITICAL INFRASTRUCTURE

$1,800,000

Secure communication networks, computer systems and infrastructure essential for wartime operations.

PATIENT CARE INFRASTRUCTURE

$500,000

Hospital beds, specialized mattresses, medical furniture, and patient support equipment for expanded capacity.

FORTIFIED DIVISION OF CRITICAL CARE

$5,000,000 for construction

$3,000,000 for equipment

Currently under construction, this is Rambam's most urgent need as a strategic asset for the State of Israel.

$13,500,000 were already raised for this important project
