NIROOT FORUM OF NGOs FOR YOUNG ADULTS AT RISK

Date: March 2, 2026

Emergency Grant Proposal: Urgent Food Vouchers for Young Adults At-Risk - "Lion's Roar" War Response Proposal-Niroot forum of NGO's for young adults at risk

The Niroot Forum is a national coalition of 37 NGOs supporting 20,000 young adults (ages 18–30) without family support. We are writing to request urgent assistance for this population, currently facing a severe crisis following the "Lion's Roar" War.

Evidence-Based Findings from our October 2025 Needs Assessment Survey following "like a lion" war:

- Employment Crisis: 78% have not been working regularly.
- 70% reported a significant deterioration in their financial situation. with 21% of young adults reporting the accumulation of new, burdensome debts
- 36% of these young adults at-risk reported that they had to financially support their parents during the crisis, despite their own lack of resources.
- Material Hardship: There is an acute need for assistance to cover basic survival: food, medicine, and utilities. Without a family safety net, these young people are unable to bridge the gap created by the war.

Our request: Immediate Humanitarian Relief

To address these findings and provide a vital lifeline, we request a grant of 1,010,000 NIS for the distribution of essential vouchers:

- Direct Aid: 400 NIS in food vouchers for 2,500 young adults at high risk (1,000,000 NIS).
- Coordination & Logistics: 10,000 NIS for nationwide procurement and distribution across our member NGOs.

Impact: This assistance is critical and provides these young adults with the dignity of basic nutrition and the stability needed to navigate the trauma of the ongoing war.

We look forward to your partnership in this urgent mission.

Sincerely yours,

Shelly Shtracher-Shalev

CEO, Niroot Forum of NGOs for Young Adults at Risk
